THE CELEBRATED HERITAGE

The Honda Super Cub™ was the right bike at the right time, and now it's back in a thoroughly modern version, the right bike for the way we ride today. Sure, you'll love the classic look, and what made it great then still makes it great now: it's affordable, practical, and just the right size for a wide variety of riders. But the real reason why the Super Cub was and is such a success is because it's just so much fun. Keep on going, little Honda!

TIMELESS DESIGN FROM THE AUTHENTIC SOUL

Up until now, the design has always been head-turning to those who are fond of retro-inspired machinery. There is a clean, high-quality feel to the smallest details of all parts. Once you ride it, you will know it.

INNOVATION THAT STARTS IT ALL

The technology was legendary then, loved for its youthful soul. Making a comeback, the innovation has been remastered for a whole new generation. It is contemporary now, expected by the free-spirited.

Round headlights, classic look
Redesigned, the classic look of the Super Cub will last a lifetime. Light up the distance with LED lights

Shock absorbers front-rear
Increase the collapse distance, absorb the pressure from the load well. Driving smoother. Whether carrying or going uphill, you can be confident with all road conditions.

LCD Digital Multi-Meter
The new mileage adds an LCD Digital display that provides complete information in every detail such as gear position, fuel amount, fuel consumption, time clock, total distance and set distance trips.

Honda Smart Engine
The latest engine technology, Honda Smart Engine, 110 cc engine, PGM-FI injection system that has developed a more complete fuel supply system. Complete with performance both economical engine power and durability that is more efficient
